

CompoPac® GROWTH - compostable climbing aids made of cellulose

- Various textile yarn production processes are combined to create one thread in order to achieve optimal climbing properties of the plants

QUALITY

Environment	100% biodegradable Suitable for home and industrial composting
Application	By winding and tying the plants climb up along the twine and due the twines natural surface the plant has the best support. If needed they also can be spliced.
Breaking force	350 N oder 400 N
Elongation	approx. 12,5% at break, approx. 2-3% operation elastic
Length	approx. 1,000 meter/kg (350 N) approx. 850 meter/kg (400 N)

CONE

Cone make up	twine on cylindrical paper tube
Weight/cone	approx. 4 kg
Length/cone 350 N	approx. 4.000 meters/cone
Length/cone 400 N	approx. 3.400 meters/cone
Colours	white white-red white-green white-black
Packing	
Pallet capacity	144 cones
Total weight/ pallet	approx. 580 kg
Minimum order quantity	1 pallet of twine in same colour

HOOKS

Types	rubber system tail system
Make up	18 or 22 cm
Winding	customized, on request
Packing	
Carton size	depending on length
Content with 14 meters length/hook	box: 330 hooks pallet: 72 cartons
Minimum order quantity	1 box

FOOD SAFE

Our yarn components, rawwhite and dyed, are certified according to LFGB and are suitable for direct contact with food
